

ENDORSEMENTS

The grant writing workshop was excellent. I would encourage churches to attend the workshop when available in the area.

Just a super presentation! I didn't have a clue so much information was available to the average person. I am looking forward to the future of our organization.

This is one of those must attend seminars that should not be missed by any leader of a non-profit organization.

Rev. Donald Moy

I came to the workshop expecting a dry and boring lecture on grant writing, and I left feeling very excited and motivated about grant writing. Thomas Moucka was a very entertaining and motivational speaker!

My comfort level with the grant writing process has skyrocketed. I'm completely jazzed to get started.

I've never written a proposal before, but now I feel like I can write one both professionally and excellently. The most helpful part of this seminar is the "walk away and use it" information. Thanks!

Before the workshop my passion for this project was impeded by my lack of knowledge about granting seeking; now I have the resources to move forward freely.

Tom's approach is personal and real... A session with the "Coach" was so much better than trying to figure out grant writing myself.

In an economy that is riddled with problems, non-profit are vying for more and more dollars. This workshop helped me see how to effectively communicate why our programs need to be at the top of the funding chain.

Laura Phillips

I have had on my heart for 25 years to be a conduit between "the need" and "the supply". I knew it had to do with foundations. I didn't know how. I have come full circle and run back into the passion of my original dream today. I have prayed for direction. I received it today in this seminar! Thank you so much!
